## Baby amazon

The first vinaceous-breasted amazon born during rehabilitation is a female! She is already eating on her own, but the parents still keep an eye on her. She enjoys flowers, leaves, fruits and seeds. Check out the baby [photo album](#)

## Amigas dos roxinhos won an international challenge!

[Instituto Espaço Silvestre](#) innovative idea was one of the winners of a challenge that looked for businesses with a positive impact on biodiversity conservation. The project [Amigas dos Roxinhos](#) was selected because it gathers

environmental awareness, income generation and women's empowerment. The business is formed by 5 women who live in Passos Maia city, where the [Parque Nacional das Araucárias](#) is located. [You can buy their handcrafted products here.](#) The challenge was proposed by [Fundação Grupo Boticário](#) in partnership with [Innonatives](#).

## Lear's macaw researchers visit

Last month we received the researchers Tatiane Valença and Fernanda Riera Paschotto from the Lear's Macaw research and conservation project. Their visit was an important chance to exchange experiences on rehabilitation and release of endangered species. Together we can fly higher!

## Parrots Festival

This year the [Parrots Festival](#) will have a very special talk. For the first time, [Instituto Espaço Silvestre](#), [Parque Nacional das Araucárias](#) and [Amigas dos Roxinhos](#) will gather on stage to talk about how the released vinaceous-breasted amazons changed the

forest and the community that lives around the National Park. The Festival will occur from April 29th- May 1st in Urupema city, Brazil. Join us in this unique chance to see groups of thousands of parrots!

## Second Parrot Day of Nürnberger

[Instituto Espaço Silvestre](#) had a short, long-distance, participation on the [2. Nürnberger Papageientag](#) (Second Parrot Day of Nürnberger.) You can watch our presentation [here](#). The entrance fee will be donated to the project. We greatly appreciate the organizers for the opportunity and support
